

Reliance Forest Fibre Pty Ltd is involved in the manufacture and sales of wood fibre products.

Reliance Forest Fibre is committed to pursuing responsible industry practices in environmental performance and to comply with the wider community and Industry expectations.

Commitment to this policy will see the company:

1. Complying with environmental legislation, regulatory frameworks, permits, standards and codes of practice relevant to our business as a minimum;
2. Wherever possible conduct our business to minimize negative environmental impacts and prevent pollution;
3. Incorporate environmental policy into the annual business plan to ensure management allocated resources to achieve our objects through measurement;
4. Communicating openly about our activities and report progress on our environmental performance;
5. Only conduct our business with companies who have a commitment to responsible environmental policies;
6. Demonstrate a clear commitment through our managers and employees; and
7. Setting objectives and targets to address any significant environmental aspects, compliance obligation and other identified risks and opportunities that may arise through our commitment to continual improvement to enhance our environmental performance.

Reliance Forest Fibre's Directors are committed to ensuring environmental compliance and continuous improvement in the performance of all people who work for or supply the company with its needs and will allocate resources to meet this commitment.
